PURPOSE OF POLICY:

The City of Upland has experienced tremendous growth in sports, including new athletic organizations and emerging sports. This growth is anticipated to continue. The increased demand for the use of City amenities makes it necessary to establish an equitable and fair method for allocating field use among present and future sports organizations. The policy set forth in this handbook will outline the allocation and rental policies for the permitted use of sports fields in the City.

This policy has been established to ensure that the fields are used for recreational, educational, and community service functions that meet the needs of the community, as well as to set clear policies, procedures, regulations, and rental rates for such uses. Furthermore, to ensure that the needs of community-based organizations and groups are being met, the criteria for establishing priorities for field use and the permitting process are outlined in this manual.

DEFINITIONS:

Organization/User Group: An organized entity or group that has been established to provide recreation or competitive sports programs, activities, practices or games for youth and/or adult participants.

UYNP: Upland-based Resident Youth Non-Profit Organization.

League: A youth non-profit organization consisting of at least four (4) teams. The league must have multiple teams in same age bracket.

New User: This is an organization which has not requested field use and/or been permitted fields in the twelve-month period preceding its submission of an Athletic Facility Use Request Form. New users must adhere to the deadlines established herein in order to be eligible for field allocations. An organization, which changes its name but otherwise remains the same, shall not be considered a “new user.” Splinter, spin-off or subsidiary organizations will be considered “new users” if they have less than fifty percent of the original organization’s participants.

A current organization that merges with another current organization shall not be considered a “new user,” provided the presidents of both merging organizations sign the allocation request form for the season in which the allocation is to take effect. New divisions of current organizations must indicate such on their Athletic Facility Use Request Form. Upland Recreation and Community Services staff will dictate the maximum amount of teams or participants for all new users. Leagues anticipating a split to form a new league or individuals planning to organize a new sports program, must notify the City six (6) months prior to the estimated starting date. This will provide the time necessary to study the impact of a new program on existing fields.

Primary User: This is an Upland Recreation and Community Services qualified Group 1 or 2.A/2.B organization and as such, has first priority for field use during the season in which they

are classified as a primary user.

Secondary User: This is an Upland Recreation and Community Services qualified Group 3 & 4 organization. A Group 2.A/2.B user may also be considered a secondary user if they are requesting field space in a season other than that in which they are designated as a primary user for the season. A secondary user may obtain field use allocations only if: a) a field is not used by a primary user; and, b) all primary users have received all field time requested and there is unused field time not allocated to primary users.

Resident: In determining 75% residency, any participant that lives in Upland, or attends a school in Upland, will be considered an Upland resident for priority status evaluation and allocation of athletic facilities. For the purpose of this document, “resident” shall be defined as an individual living within the incorporated boundaries of the City of Upland or who attends a school in the City of Upland. UYNP groups must have 75% or more of the participants living within the incorporated area of the City of Upland or attending school in Upland to receive priority field consideration and a discounted rate for applicable fees.

Non-Resident: For the purpose of this document, “non-resident” shall be defined as any individual living outside the incorporated boundaries of the City of Upland. Non-resident groups having less than 75% of the participants per team living within the incorporated area of the City of Upland shall be classified as “non-resident”. An organization or company located outside the incorporated boundaries of the City of Upland shall be classified as “non-resident”. Participants unable to furnish proof of residency shall be classified as “non-resident”.

Participant: In a youth league, “participant” shall include only those players up to and including seventeen (17) years old that are fully registered with a user organization. In an adult league, “participant” shall include only those players eighteen (18) years of age or older.

Recreational League: In a recreational league, rules require that everyone must play. Registration is open to everyone.

Competitive League: In a competitive league, there is no minimum play rule, and they have a selective registration process.

Field: Any open space located at a park that may be utilized for athletic purposes.

Code of Conduct: Approved classification Group 2.A/2.B organizations must file a City approved Code of Conduct for participants, parents, and coaches with the Upland Recreation and Community Services, as part of their permit requirements and application process. The Code of Conduct will outline the principles of sportsmanship, fair play and other ethical issues that relate to team sports.

THREE STRIKES POLICY:

The purpose of this policy is to implement a systematic method of enforcing the City of Upland's Municipal Code and the Athletic Facilities Policy & Procedures Manual. Strikes issued should serve as a warning sign to potential issues that may immediately jeopardize all permits held by the organization. Upland Recreation and Community Services reserves the right to cancel or suspend approved for games, practices, and other usages based on user groups violation of the City Municipal Code or established Athletic Facilities Policy & Procedures Manual. Non-Adherence to City policy and City ordinances may result in the retention of a portion of or all of the deposit and/or result in the cancellation of current and/or future use.

The following are examples that may result in strikes being issued:

- Illegal use of fields without a permit.
- Illegal use of park space not designated for intended athletic sport related use.
- Vending on City premises without permit or written consent from Upland Recreation and Community Services.
- Organizations found to be practicing or playing games prior to or outside of their permitted time and/or date.
- Organizations found to be practicing or playing games in locations other than those authorized by the City of Upland.
- Organizations found to be sub-letting or swapping field permits with any other organizations.
- Organizations found to be practicing or playing games on fields which have been previously closed due to inclement weather or any other purpose.
- Organizations failing to meet monthly financial obligations.

- Organizations not utilizing permitted fields.
- Organizations utilizing athletic facility lights outside of reserved time frame.
- League representative disrespecting a field monitor or organization representative.

Strike One:

- Consists of documented activity in direct violation of the City Municipal Code or Athletic Facilities Policy. A letter will be written to the user group president and field allocation representative documenting the violation. The letter will be placed in the group's file. This may be appealed to the Upland Recreation and Community Services designee. Staff costs will be absorbed by the organization as stated by the City of Upland Schedule of Fees.

Strike Two:

- Occurs after a second documented violation within a current allocation period. The group

will be informed in writing that a Community Services staff member will be assigned to their permitted activity at the respective park where the violation occurred. The staff member will monitor activity at the site and report any further violations to the City. This may be appealed to the Upland Recreation and Community Services designee. Staff costs will be absorbed by the organization as stated by the City of Upland Schedule of Fees.

Strike Three:

- The third documented violation within the current allocation period. All permits held by said organization/entity for the remainder of the allocation period and future allocation will be revoked. This may be appealed to the Upland Recreation and Community Services designee. Staff costs will be absorbed by the organization as stated by the City of Upland Schedule of Fees.

Notwithstanding the above, the City has the discretion to revoke the right to use any field or facility to any User Group immediately without following the three strikes procedure set forth above if the violation of state law, the Municipal Code, this policy or other policies, rules or regulations warrant such immediate revocation as determined by the City in its sole discretion.

FIELD CLOSURES:

- The City of Upland reserves the right to suspend facility availability during periods of inclement weather, poor playing conditions, damage (which would cause hazardous safety considerations), and for necessary maintenance.
- When thunder is heard and lightning is seen during field use, User Group must suspend play and take shelter immediately. Once play has been suspended, User Group shall wait at least (30) thirty minutes after the last thunder is heard or lightning flash is witnessed prior to return to play.
- User Groups may reserve the right to cancel practices or games if they feel that the fields are unplayable due to weather conditions.
